

Team Lead

Key Responsibilities

- Assigning tasks and responsibilities to team members.
- Monitoring project progress and ensuring deadlines are met.
- Providing guidance, direction and support to team members.
- Mentoring and coaching team members to aid their professional growth.
- Facilitating communication and collaboration within the team
- Providing feedback
- Contributing to the technical aspects of projects, including design, analysis and problemsolving
- Offering expertise and guidance on engineering principles and best practices.
- Liaising with clients to understand their requirements and expectations.
- Providing updates on project progress and addressing client concerns or feedback

Profile

- You are an (industrial) engineer or equivalent through experience, with substantial experience in the industry, with a strong emphasis on automated processes, preferably in various companies.
- You have extensive experience in engineering and process improvement. Additionally, you are proficient in working with data and online platforms. Our internal stakeholders are skilled and knowledgeable, so it is essential that you have good communication skills to effectively interact with them.
- You can work independently and take responsibility for your work.
- Enjoying your work is of great importance to you, and at B.HETA, we strive for all colleagues to feel valued.
- You have excellent command of English; knowledge of Dutch and French is a plus.

What do we offer

- Permanent employment contract
- Highly competitive salary
- Mobile phone subscription
- Health insurance
- Year-end bonus
- Meal vouchers
- Great working environment
- The opportunity to work in an experienced, motivated, and agile team
